EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen B. Salai on 8/30/06.

The application has been amended as follows:

Claim 1 line 7, after "distal end of the gap" delete "for selectively" and replace therewith --and an element cooperating with the aperture sequentially--.

Claim 22 line 6 after "suture pick up member" delete "for selectively" and replace therewith --the suture holder having an element sequentially--.

Claim 37 line 1, after ""closing a wound" add --with a stitch at a remote surgical site--. Line 9 after "steps b-e" add --without withdrawing the suture from the remote surgical site--.

Claim 44 line 1, delete the first "A" and replace therewith --The—and after "method of" add –claim 37 further comprising--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art on record fails to disclose or suggest means sequentially holding and releasing a ferrule

using a ferrule receiving aperture and a cooperating element. Furthermore, the prior art does not disclose or suggest means for closing a wound with a stitch at a remote surgical site that encompasses making multiple stitches without withdrawing the suture from the remote surgical site.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
